

# 1010 CD Player

Power Output (1KHz) : 50W per channel RMS 8 Ohms  
 Input Sensitivity : 250mV  
 Input Impedance : >14K Ohms  
 Frequency Response : 20Hz - 20KHz +/- 0.7dB  
 Total Harmonic Distortion : <0.05% at rated power  
 Signal to Noise Ration : >95dB, A Weighted, ref rated power  
 Channel Separation : >60dB  
 Mains Supply : 110/120V or 220/240V, 50/60Hz (factory set)  
 Power Consumption : <120W  
 Dimensions - H x W x D : 90mm x 420mm x 300mm  
 Nett Weight (unpacked) : 5kg  
 Gross Weight (packed) : 7kg

### The 1010 integrated features:

1. High capacity 120VA custom made toroidal transformer
2. Anodised aluminium faceplate
3. High quality capacitors used in signal path
4. Short signal path pcb
5. Relay switching of input signals
6. Dedicated fixed gain AV input
7. Cascode circuitry used for improved power supply immunity
8. High quality remote control
9. Three year guarantee

Output Level : 2V RMS  
 Frequency Response : 20Hz - 20KHz +/- 0.03  
 Total Harmonic Distortion : <0.008% at 1KHz, 0dBfs  
 Signal to Noise Ratio : >95dB, A weighted  
 Digital Output : 'Toslink' Optical  
 Mains Supply : 110/120V or 220/240V, 50/60Hz (factory set)  
 Power Consumption : <15W  
 Dimensions - H x W x D : 90mm x 420mm x 300mm  
 Nett Weight (unpacked) : 5kg  
 Gross Weight (packed) : 7kg

### The 1010 CD features:

1. High capacity 30VA custom made toroidal transformer
2. Anodised aluminium faceplate
3. High quality capacitors used in signal path
4. CD display can be turned off for improved sound quality
5. Optical output to connect to external Digital to Analogue Converter or recording device
6. High quality double-sided pcb for optimum layout and screening
7. High quality remote control
8. Three year guarantee

## 1010: new for 2011

The 1010 series is for the new generation of music lovers. Designed to introduce you to the distinctive Exposure sound, the 1010 series comprises a CD player and an integrated amplifier.

Hooking these up to a proper set of speakers takes just a few minutes. However, listening to your favourite music all over again will take hours... as you tickle your ears with real hi-fi sound.

It's all about tuneful bass, sparkling high frequencies and an open mid-band that brings performers into your room... at a price that will leave you smiling.

This is how hi-fi is supposed to be – simple, affordable and fun.

Exposure Electronics Ltd  
Unit 18, Winston Business Centre, Chartwell Road,  
Lancing, West Sussex, BN15 8TU,  
United Kingdom.
